

St Albert United Church Joins Northern Spirit Regional Worship Service

We are not alone, we live in God's world!

These words are a gift and a challenge to us. As we celebrate that we are surrounded by the love of our Creator and that it is through our relationships and community that God's love is manifested, we are also invited to see how we too can reveal God's love. This Sunday, our congregation, St Albert United Church, is using the magic of technology to share a regional worship service produced by Grace United Church in Edmonton. Folks from northern Alberta and the northeast tip of BC, comprising our Northern Spirit Region, share their leadership to explore how in these strange and challenging times God is calling us to be seeds of hope. May this coming together of community remind us that surely God is in this place in ways we didn't expect. If you are able to print the bulletin ahead of time, it will help you follow the video and allow you to know who the speakers are as the service moves along.
