### **terra nullius**

The reality is that beyond the legal context, the principles of terra nullius continue to influence the ways in which society operates, a prime example being the Canadian parks system. Wilderness has often been defined as terra nullius resulting in land being claimed for parks without regard for Indigenous communities being displaced. In 1910, the creation of Jasper National Park caused 25 First Nations groups to be expelled from the park with limited compensation. In 1948 the Kluane Game Sanctuary was created, resulting in the violent separation of the Champagne and Aishihik First Nations and the Kluane First Nations from their traditional lands.

My first order of business is to apologize to the congregation for the wait time in receiving the report from the Elvis concert held on September 10, 2022.

Secondly, unfortunately, time has been of the essence in our home. We have, as many of you are aware, been dealing with a health situation and have been required to attend numerous appointments, and this has impacted my ability to work on the above report.

I am hopeful that I will have this report in-hand for this coming Sunday morning. Thank you all for your understanding.
